

## HUSQVARNA COMPLETE - A BENEFIT PROGRAM BY HUSQVARNA CONSTRUCTION

Husqvarna Construction introduces Husqvarna Complete – a benefit program that allows contractors to lease select Husqvarna equipment.

### **About Husqvarna Complete**

Husqvarna Complete is a benefit program allowing contractors the opportunity to lease multiple Husqvarna tools versus the purchase of one tool. The fixed monthly cost provides a flexible coverage period and the opportunity to upgrade to the latest equipment quickly and easily. 24 Month, 36 Month and 48 Month contracts are available.

### **Warranty vs. Husqvarna Complete Coverage & Benefits**

A warranty will cover equipment repairs due to defect within the warranty period. Husqvarna Complete provides coverage on 10+ factors. Those factors include: eliminating upfront purchase cost of select equipment, prioritizes repairs during and beyond the warranty period in a quick turnaround time and eliminates unplanned repair costs.

### **Husqvarna Complete Service Plans**

**LECAREX - 48 HOUR REPLACEMENT** If your equipment is down, call a Husqvarna Service Center to schedule a replacement to be sent out. The exchange box with serviced equipment will be sent to your current location. Reuse the box to ship your machine back to Husqvarna. No down time required.

**LECARE - 5 DAY REPAIR PROGRAM** Bring or ship your equipment to your nearest Husqvarna Service Center and we will repair it within 5 working days from the day we receive the equipment. If we cannot repair it within 5 working days, we will provide a loaner at no additional cost to you.

To learn more about Husqvarna Complete, and to see if you qualify, please contact your Husqvarna Construction Representative.
